

SUMMIT GUIDE

Lendlease Investment Management is excited to invite our valued customers and partners to our inaugural Customer Summit, taking place between the 5th - 8th September 2022.

We've created an authoritative mix of speakers and events around the challenge statement of:

How might we collectively accelerate and simplify our transition to zero emissions through real estate?

This is a challenge that we know requires collaboration across industries and sectors, and the summit creates a unique opportunity for us to learn from each other, and hopefully build new partnerships.

Throughout the week, we'll cover topics ranging from setting targets, to debating offsets and accelerating innovation. Delivered through a mix of virtual and in-person events that allows you to dial-in to the conversations that matter most to you.

You can read more about the agenda and speakers for the Summit in this guide, we look forward to seeing you there.

Natalie Glessor

Head of Customer & Digital
Investment Management,
Lendlease

Ann Austin

Head of Sustainability
Lendlease Australia
